

## LC-Specific Information G 605

**BACKGROUND:** *The 2nd edition of the Subject Cataloging Manual: Shelflisting was published in 1995. Since the publication of that edition, many instruction sheets have been deleted or renumbered in order to separate general information on shelflisting from instructions that refer specifically to Library of Congress processing procedures and are relevant only to Library of Congress staff (G 610-G 810). This instruction sheet shows the disposition of the deleted or renumbered instruction sheets. The ILS Supplement mentioned in this list is an internal document that is available only to Library of Congress staff.*

**1. Deleted instructions.** The following instruction sheets have been deleted because they have been replaced by information in the *ILS Supplement*, which is available to Library of Congress staff at <<http://www.loc.gov/staff/aba/psd/scmsltc.html>>.
